REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The art of record closest to the claims fail to teach or suggest a method of making a vasso-occlusive coil having shape memory characteristics from heat treatment having an austenite phase and a plurality of segments and also artificially aging a plurality of segments of the coil to cause the plurality of segments to have an Austenite phase finish temperature that is greater than the austenite phase finish temperature of the remainder of the variable stiffness coil.

For these reasons the examiner believes the claims are allowable over the art of record

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
